## A CHILD'S PLAYROOM IS A PLACE OF CREATIVITY AND IMAGINATION

Our daily environment influence to kids directly. Sadly true is : The young generation attract video games, computer, tablet, smart phone such as many devices bring them bad habits. Nobody wants that their kid's childhood memory was allways on the phone without much more fun and memories.

This time I would like to recommend benefital and attractive designing solution bring to childrens having fun to play with physical and psychologic development.

Design concept devided in 2 part:

- Studying: Creating and studyng a space that inspires kids to experience the joys of play is an amazing opportunity for obtain new knowledge from environment to develop intellection of childrens.
- Second is area for playing: Remind fantasy world, colorful and unusual magic area with various interesting games would attract the interest of kids.

## WONDERLAND

THE MAIN PURPOSE OF THAT PLAYING AND STUDYING AREA WOULD EFFICIENTLY DEVELOP INTELLIGENCE OF CHILDREN. DESIGN SOLUTION CAN REMIND YOU THE FANTASY WORLD, COLORFUL COLORS WOULD ATTRACT THE INTEREST OF KIDS.
