

(D) Technical and extension publications:

- 1 Young, C. C. 1973. Genetical studies on protein content and quantitative characters in rice varieties. M. S. thesis, National Chung Hsing University, Taichung, Taiwan, Republic of China. (in Chinese)**
- 2. Young, C. C. and D. P. Bartholmew. 1978. Allelopathy can be a deterrent to the productivity of pasture. Consortium on Soils of the Tropics Newsletter 2(3):1.**
- 3. Young, C. C. 1979. Allelopathy in a grass-legume association: A case study with *Hemarthria altissima* and *Desmodium intortum*. (Dissertation Abstracts International 40(03): 1979. Ph. D. dissertation, University of Hawaii, Honolulu, Hawaii, USA.**
- 4. Tang, C. S. and C. C. Young. 1979. Allelopathic inhibition of legumes by grasses II. Collocation of allelopathic inhibitors from root systems by continuous trapping on an XAD-4 resin column. Abstract accepted and physiologist Meeting, Columbus, Ohio. (Abstract in supplement to: Plant Physiology 63(5):105).**
- 5. Young, C. C., D. P. Bartholomew and C. S. Tang. 1979. Allelopathic inhibition of legumes by grasses. I. Growth and nodulation inhibition of *Desmodium intortum* by bigalta limpogress. Abstract accepted and presented. Paper No. 582 at the Annual American Society of Plant Physiologist Meeting, Columbus, Ohio. (Abstract in supplement to: Plant Physiology 63(5):105.**
- 6. Young, C. C. 1986. A demand and development for the use of soil microorganisms - rhizobium and mycorrhizal fungi. Agriculture in National Chung Hsing University. 2:17-20.(in Chinese)**
- 7. Young, C. C. 1986. Siderophores from soil microorganisms. Newsletter of Soil and Fertilizer. 10:166-168.(in Chinese)**
- 8. Young, C. C. 1985. Maintenance of soil fertility (course 1): Maintenance of inorganic fertility. Pesticide World. 24:21-22.(in Chinese)**
- 9. Young, C. C. 1985. Maintenance of soil fertility (course 2): Maintenance of organic fertility. Pesticide World. 25:38-39.(in Chinese)**
- 10. Young, C. C. 1985. Maintenance of soil fertility (course 3): Maintenance of soil microorganisms. Pesticide World. 26:44-46.(in Chinese)**
- 11. Young, C. C. 1985. Diagnosis of diseased soil (course 1): Easy methods for the diagnosis of soil. Pesticide World 27:40-42.(in Chinese)**

12. Young, C. C. 1985. Diagnosis of diseased soil (course 2): Chemical assay for the diagnosis of soil. *Pesticide World* 28:38-39.(in Chinese)
13. Young, C. C. 1986. Diagnosis of diseased soil (course 3): Diagnosis of soil pollution. *Pesticide World* 30:16-18.(in Chinese)
14. Young, C. C. 1986. Be aware of human properties-soil. *Pesticide World*. 29:28-30.(in Chinese)
15. Young, C. C. 1986. Allelopathy of Asparagus: How to prevent? *Feng-Nian* 36 (6):24-26.(in Chinese)
16. Young, C. C. 1986. A demand for the use of fertilizer when grow with Tangerine. *Sinon*. 213:32-34.(in Chinese)
17. Young, C. C. 1986. The essence of soil – humic acid. *Pesticide World* 31:49-51.(in Chinese)
18. Young, C. C. 1986. The improvement of fertilization (course 1). *Pesticide World* 32:52-54.(in Chinese)
19. Young, C. C. 1986. The improvement of fertilization (course 2). *Pesticide World* 33:50-51.(in Chinese)
20. Young, C. C. 1986. Is microorganism useful? *Feng-Nian* 36(12):44-47.(in Chinese)
21. Young, C. C. 1986. The relationship between soil microorganisms and nitrogen fertilizer. *Pesticide World* 34:51-52.(in Chinese)
22. Young, C. C. 1986. The nature of phosphorus in soil and its applications. *Pesticide World* 35:30-32.(in Chinese)
23. Young, C. C. 1986. The nature of potassium and magnesium in soil and their applications. *Pesticide World* 36:62-63.(in Chinese)
24. Young, C. C. 1986. The nature of calcium and sulfur in soil and their applications. *Pesticide World* 37:28-30.(in Chinese)
25. Young, C. C. 1986. Diagnosis and therapy of soil in the deficiency of trace element and molybdenum. *Pesticide World* 39:26-28.(in Chinese)
26. Young, C. C. 1986. The nature of iron, copper, zinc and manganese in soil and their applications. *Pesticide World* 40:34-36.(in Chinese)
27. Young, C. C. 1986. The nature of potassium phosphate and calcium phosphate in soil and their applications. *Pesticide World*. *Sinon* 222:56-59.(in Chinese)

28. Young, C. C. 1987. Management of crop nutrition and soil in winter. *Pesticide World*. 41:23-25.(in Chinese)
29. Young, C. C. 1987. The concept and application of folia fertilization (course 1). *Pesticide World* 42:67-69.(in Chinese)
30. Young, C. C. 1987. The concept and application of folia fertilization (course 2). *Pesticide World* 43: 75-78.(in Chinese)
31. Young, C. C. 1987. The concepts of how to improve soil fertility and their application. *Newsletter of Agricultural Extension of Taichung* 9(1):6-13.(in Chinese)
32. Young, C. C. 1987. A demand for the use of soil microorganisms. A weekly publication of *Agriculture from Council of Agriculture* 115:15-17.(in Chinese)
33. Young, C. C. 1987. Diagnosis and management of soil pH value. *Sinon* 226:73-77.(in Chinese)
34. Young, C. C. 1987. The application of fertilization in stress environment – climate pathogen stress. *Pesticide World*. 44: 41-43.(in Chinese)
35. Young, C. C. 1987. The breakthrough of biological fixation. *Newsletter of soil and fertilizer* 13:224-226.(in Chinese)
36. Young, C. C. 1987. Management of soil environment in rainy season. *Pesticide World* 45:12-14.(in Chinese)
37. Young, C. C. 1987. Organic fertilizers and their application (1). *Pesticide World* 46:89-92.(in Chinese)
38. Young, C. C. 1987. Organic fertilizers and their application (2). *Pesticide World*. 47:51-53.(in Chinese)
39. Young, C. C. 1987. Application of fertilizer and the quality of agriculture product (1). *Pesticide World* 48:57-58.(in Chinese)
40. Young, C. C. 1987. Application of fertilizer and the quality of agriculture product (2). *Pesticide World* 49:63-66.(in Chinese)
41. Young, C. C. 1987. Seedling of soybean and conspectus of inoculation of nitrogen fixing *Rhizobium*. *Pesticide World* 50:23-25.(in Chinese)
42. Young, C. C. 1987. The advantages/disadvantages and of introspection of hydroponic vegetables. *Pesticide World* 51:41-43.(in Chinese)
43. Young, C. C. 1987. How does the earth recovery? *Pesticide World* 52:26-27.(in Chinese)

44. Young, C. C. 1988. Management of agricultural soil and conspectus of fertilization in mountainside. *Pesticide World* 53:22-24.(in Chinese)
45. Young, C. C. 1988. Conspectus of liquid fertilization. *Pesticide World* 54:34-38.(in Chinese)
46. Young, C. C. 1988. A brief introduction and perspective of organic farming. *Pesticide World* 55:42-44.(in Chinese)
47. Young, C. C. 1988. The application of slowly-releasing fertilizer. *Pesticide World* 57:82-84.(in Chinese)
48. Young, C. C. 1988. Siderophore in the soil and plant health. *Pesticide World* 58:83-85.(in Chinese)
49. Young, C. C. 1988. Is it better to use more fertilizers? *Pesticide World* 59: 70-72.(in Chinese)
50. Young, C. C. 1988. The relationship between plant nutrition and soil microorganisms. *Pesticide World* 61:67-69.(in Chinese)
51. Young, C. C. 1988. Biofertilizer-phosphate solubilizing microorganisms. *Pesticide World* 62:67-69.(in Chinese)
52. Young, C. C. 1988. Roles of microorganisms in organic farming. *Pesticide World* 63:23-25.(in Chinese)
53. Young, C. C. 1988. A handbook for the application of biofertilizer. Department of Soil and Environmental Sciences, National Chung Hsing University. p.1-19.(in Chinese)
54. Young, C. C. 1988. A handbook for the application of soil microorganisms in forest land. Department of Soil and Environmental Sciences, National Chung Hsing University. p. 1-16.(in Chinese)
55. Young, C. C. 1988. A way to ameliorate soil pollution. *Blogs newspaper*. Forum in people's livelihood.(1988/10/17) (in Chinese)
56. Young, C. C. 1988. The application of green manure and preservation of soil. *Pesticide World* 64:58-61.(in Chinese)
57. Young, C. C. and C. C. Chen. 1989. The distribution and problems of diseased soil in Taiwan. *Newsletter of soil and fertilizer* 24:16-17.(in Chinese)
58. Young, C. C. 1989. Managements of coarse texture soil and conspectus of fertilization. *Pesticide World* 66:47-48.(in Chinese)
59. Young, C. C. 1989. Problem and solution of continuously farming in soil. *Pesticide World* 70:32-33.(in Chinese)

60. Young, C. C. 1989. Conspectus of soil management in nursery garden. *Pesticide World* 72:26-27.(in Chinese)
61. Young, C. C. 1989. Conspectus of improving soil productivity in mountainside. *Pesticide World* 74:15-17.(in Chinese)
62. Young, C. C. 1989. Diagnosis of soil: example of soil grown with Tangerine. *Sinon* 241:42-47 .(in Chinese)
63. Young, C. C. 1989. Recognition and amendment of soil pollution area. *ROC Society of Soil and Fertilizer*. p. 73-76.(in Chinese)
64. Young, C. C. 1989. Soil Science-structure and function. Teaching materials for the conservation of soil and water resource. (in Chinese)
65. Young, C. C. 1990. Effectiveness and application of biofertilizer. *Newsletter of Agricultural Extension of Kaohsiung* 12:14-17.(in Chinese)
66. Young, C. C. 1990. Conspectus for the maintenance of soil organic matter and microorganisms. *Newsletter of Agricultural Extension of Taichung* 12:4-8.(in Chinese)
67. Young, C. C. 1990. Introduction of rock phosphate and the conspectus for the application. *Pesticide World* 79:44-46.(in Chinese)
68. Young, C. C. 1990. Characteristics and application of peat moss. *Pesticide World* 80:26-29.(in Chinese)
69. Young, C. C. 1990. The influence of fertilization and crop quality on the plant health. *Pesticide World* 84:18-20.(in Chinese)
70. Young, C. C. 1990. Biochemical materials and microorganisms in the soil. *Newsletter of Life Science* 4(4):7-8.(in Chinese)
71. Young, C. C. 1990. Collections of agricultural microorganisms-screening, identification and preservation of nitrogen fixing bacteria (1). A research report in *Food Industry Research and Development Institute* 600: 1-17. (in Chinese)
72. Young, C. C. 1990. Collections of agricultural microorganisms-screening, identification and preservation of nitrogen fixing bacteria (2). A research report in *Food Industry Research and Development Institute* 616 : 1-22. (in Chinese)
73. Young, C. C. 1991. Collections of agricultural microorganisms-screening, identification and preservation of nitrogen fixing bacteria (3). A research report in *Food Industry Research and Development Institute* 650-1 : 1-21. (in Chinese)

74. Young, C. C. 1991. Maintenance of soil organic matter to improve the quality of soil. A handbook of soil management. Council of Agriculture. p. 160-170. (in Chinese)
75. Young, C. C. 1991. Effectiveness of soil organic matter and application of organic fertilizer. *Sinon* 264: 4145. (in Chinese)
76. Young, C. C. 1991. Characteristics and the conspectus for the application of bark compost. *Pesticide World* 89:52-54. (in Chinese)
77. Young, C. C. 1991. A warning to the productivity of agricultural product. A case report of watermelon. *A Monthly report in the science*. (in Chinese)
78. Young, C. C. 1991. A point for attention of the application of organic fertilizer. *Pesticide World* 94:52-54. (in Chinese)
79. Young, C. C. 1992. Organic materials used in organic farming: their types, characteristics and application. *MOA International Nature Farming Research Center* 5:29-32. (in Chinese)
80. Young, C. C. and C. C. Chao. 1992. The relationship between soil pollution and organisms. Teaching materials for the training of environmental protection staffs-Prevention of soil pollution. *Soil and Environmental Sciences, National Chung Hsing University*. p. 87-115. (in Chinese)
81. Young, C. C. and C. H. Lu. 1992. Characterization of soil erosion and the problems to the concervation. *National Chung Hsing University and Chinese Culture University*. p. 1-24.(in Chinese)
82. Young, C. C. 1992. The Harm to the productivity of agricultural products by natural debacle and the way to deal with the situation. *Sinon* 282:34-38. (in Chinese)
83. Young, C. C. 1992. Microbial fertilizer. *Sinon* 283:25-28. (in Chinese)
84. Young, C. C. 1992. Organic fertilizer. *Sinon* 283:40-44. (in Chinese)
85. Young, C. C. 1992. Characteristics of planting materials and conspectus for the application. *Pesticide World* 112: 33-35. (in Chinese)
86. Chen, L. F. and C. C. Young.1993.The essence of soil – humic acid. *A monthly report in the science* 24(1): 53-58. (in Chinese)
87. Young, C. C. 1993. The application of green manure in organic farming. *MOA International Nature Farming Research Center* 9:7-10. (in Chinese)
88. Young, C. C. 1993. Protocols for the analysis of organic toxicant in soil. *A handbook of soil analysis. ROC Society of Soil and Fertilizer* p.20.1-20.6. (in Chinese)

89. Young, C. C. 1993. Management of sediment in aquafarm. A demonstration handbook for the culture of shrimp in a continuous system. Special Issue on Fishery, Council of Agriculture NO.36.(in Chinese)
90. Young, C. C. 1993. Problem and solution of continuously farming in soil. Cultivation Techniques of Vegetables and Facilities in Subtropic Region. p. 71-74. (in Chinese)
91. Young, C. C. and C. L. Chang. 1993. Techniques in the fertilization and irrigation. Cultivation Techniques of Vegetables and Facilities in Subtropic Region p.75-83. (in Chinese)
92. Young, C. C. 1994. A common deficiency in the fertilization and their amendment. Pesticide World 125: 32-34.(in Chinese)
93. Young, C. C. 1994. The situation and perspective of microbial fertilizer. Medical Industrial Report in Biotechnology 3(4):15-20. (in Chinese)
94. Young, C. C. 1994. The application of microbial fertilizer in the sustainable agriculture. Sustainable Agriculture 1:29-32. (in Chinese)
95. Young, C. C. 1994. Organic toxicant and hormone. A handbook of plant analysis. ROC Society of Soil and Fertilizer. (in Chinese)
96. Young, C. C. 1994. The importance of soil and fertilizer. Sinon 308:62-64. (in Chinese)
97. Young, C. C. 1995. The advantage/disadvantage and management of using bactericide and pesticide in soil. Pesticide World 142:26-28.(in Chinese)
98. Young, C. C. 1995. Management of soil and fertilizer and continuously farming problems. Cultivation Techniques of Vegetables and Facilities in Subtropic Region p.69-77.(in Chinese)
99. Young, C. C. 1995. The application of microbial fertilizer. Special Issue on Agriculture, Hualien 12:7-8.(in Chinese)
100. Young, C. C. 1995. Nitrogen fixation of legumes (green manure) and the protocols for the inoculation of *Rhizobium*. Council of Agriculture, Excusive Yuan and Department of Agriculture and Forestry. Provincial Government of Taiwan. p.13-17. (in Chinese)
101. Young, C. C. 1995. Management of soil and fertilizer and continuous farming problems (2). Flower Gateway 17:2-6. (in Chinese)
102. Young, C. C. 1995. A handbook for the application of indigenous planting materials. Council of Agriculture and Department of Soil and Environmental Sciences, National Chung Hsing University. p.1-34. (in Chinese)

103. Young, C. C. and C. H. Lin. 1995. Water/fertilizer preservation and management of greensward in golf course. Department of Soil and Environmental Sciences, National Chung Hsing University. p.1-24.(in Chinese)
104. Young, C. C. 1995. Fertilizer management of greensward in golf course. *Sinon* 322:8-12.(in Chinese)
105. Chein, S. Y., C. C. Chao, T. C. Juang and C. C. Young. 1995. Transfer of bacterial genetic materials in soil environment. *Newsletter of Soil and Fertilizer* 50:7-22.(in Chinese)
106. Young, C. C. 1995. The application of microbial fertilizer and organic fertilizer. *Fu Shou Hsin Magazine* 10(1): 16-18.(in Chinese)
107. Young, C. C. 1996. Organic farming cultivation and standardization. *Newsletter of Soil and Fertilizer* 52:1-9.(in Chinese)
108. Young, C. C. 1996. The application of indigenous planting materials. *Newsletter of Soil and Fertilizer* 53:5-8.(in Chinese)
109. Young, C. C. 1996. Development and improvement of indigenous planting materials. *Research of Horticulture Facility and Technique Development* 327-334.(in Chinese)
110. Young, C. C. 1996. Planting materials for the cultivation of rose and fertilizer management. *Agriculture in National Chung Hsing University* 18:8-10.(in Chinese)
111. Young, C. C. and A. T. Hung. 1996. Development and application of soybean associated nitrogen fixing *Rhizobium*. ROC Research Report of Agricultural Technology. Council of Agriculture, Excusive Yuan.p.178-179.(in Chinese)
112. Young, C. C. 1997. Research on the soil ecology and agricultural productivity. A monthly report in the science. 25(3):145-148.(in Chinese)
113. Young, C. C. 1997. Sylva growth and acclimation in the farming ecosystem. Research on the afforestation and Sylva cherish. Taiwan Forestry Research Institute p.47-53. (in Chinese)
114. Young, C. C. 1997. Soil and production of crop. Diagnosis of soil environment and plant nutrition. Agricultural Extension Center, National Chung Hsing University. p.1-9. (in Chinese)
115. Young, C. C. 1997. Characteristics and application of planting materials. Diagnosis of soil environment and plant nutrition. Agricultural Extension Center, National Chung Hsing University. p.221-228. (in Chinese)

116. Young, C. C. 1997. Development and application of microbial fertilizer. Diagnosis of soil environment and plant nutrition. Agricultural Extension Center, National Chung Hsing University. (in Chinese)
117. Young, C. C. 1997. Reasonable fertilization of fruit tree and the conspectus. Agriculture World 168:11-16.(in Chinese)
118. Young, C. C., L. C. Chen and L. F. Chen. 1998.The influence of cold vegetable, soil property and fertilization on water and soil preservation. Special Issue on Forestry, Council of Agriculture 60:99-110.(in Chinese)
119. Young, C. C. 1998. Soil management and reasonable fertilization in tea garden. Special Issue on sustainable management of tea (a short-term training). p. 1-7. (in Chinese)
120. Chang, F. P. and C. C. Young.1998.The effects of phosphate solubilizing bacteria on the absorption of phosphate and quality of tea. Analytical Report of Soil and Fertilizer. Department of Agriculture and Forestry. Provincial Government of Taiwan. p.257-267.(in Chinese)
121. Young, C. C., J. M. Liou and S. C. Wu. 1999.The influence on the water and soil preservation by multi-functional techniques used in mountainside farm. Research Project of Water and Soil Preservation. p.281-288.(COA Forestry Series NO.62) (in Chinese)
